# The people of Hitchhiker's Guide to the Galaxy

To tell the story of the book, it is best to tell the story of some of the people behind it. A human from the planet Earth was one of them, though as our story opens he no more knows his destiny than a tea leaf knows the history of the East India Company.

# The planets of Hitchhiker's Guide to the Galaxy

'None at all' is exactly how much suspicion the ape descendant Arthur Dent had that one of his closest friends was not descended from an ape, but was in fact from a small planet somewhere in the vicinity of Betelgeuse.

# The technology of Hitchhiker's Guide to the Galaxy

The babel fish is such a bizarrely improbable coincidence that anything so mindbogglingly useful could evolve purely by chance that some thinkers have chosen to see it as a final clinching proof of the non-existence of God.

# More people of Hitchhiker's Guide to the Galaxy

I don't go around gratuitously shooting people and then bragging about it in seedy space rangers' bars. I go around gratuitously shooting people and then agonise about it afterwards to my girlfriend.

Oh freddled **gruntbuggly**,  
Thy **micturations** are to me,  
As plurdled **gabbleblotchits**, in midsummer  
morning  
On a **lurgid bee**,  
That **mordiously** hath blurted out,  
Its earted **jurtles**, grumbling  
Into a rancid **festering** confectionous organ squealer.  
Now the **jurpling** slayjid agrocrustles,  
Are slurping hagrilly up the **axlegrurts**,

And living **glupules** frart and stipulate,  
Like jowling meated **liverslime**,  
Groop, I implore thee, my foonting  
**turlingdromes**,  
And hooptiously **drangle** me,  
With crinkly **bindlewurdles**, mashurbitries.  
Or else I shall rend thee in the  
**gobberwarts** with my blurglecruncheon,  
See if I don't!

# Share and enjoy

The protruding upper halves of the letters now appear, in the local language, to read 'Go stick your head in a pig' and are no longer illuminated except at times of special celebration.

At these times of special celebration a choir of over two million robots sing the company song 'Share and Enjoy'.

**Share and Enjoy,**

Share and Enjoy,

**Journey** through life

With a **plastic boy**

Or **girl by your side,**

Let your pal be your **guide.**

And when it **breaks down,**

Or starts to **annoy,**

Or **grinds** when it moves,

And gives you **no joy,**

Cause it's **eaten your hat,**

Or has **stolen your cat,**

**Bled oil** on your floor,

Or **ripped** off your door,

And it gets to the **point**

You can't **stand anymore,**

Bring it to us,

We won't **give a fig.**

We'll tell you

Go stick your **head in a pig!**
