DON'T PANIC

The most remarkable

word search book

ever to come out of the great publishing
corporations of *Ursa Minor*.

Share and Enjoy,
Share and Enjoy,
Journey through life
With a **plastic boy**
Or **girl by your side,**
Let your pal be your **guide.**
And when it **breaks down,**
Or starts to **annoy,**
Or **grinds** when it moves,
And gives you **no joy,**

Cause it's **eaten your hat,**
Or has **stolen your cat,**
Bled oil on your floor,
Or **ripped** off your door,
And it gets to the **point**
You can't **stand anymore,**
Bring it to us,
We won't **give a fig.**
We'll tell you
Go stick your **head in a pig!**

Share and enjoy

The protruding upper halves of the letters now appear, in the local language, to read 'Go stick your head in a pig' and are no longer illuminated except at times of special celebration.

At these times of special celebration a choir of over two million robots sing the company song 'Share and Enjoy'.

Oh freddled **gruntbuggly**,
Thy **micturations** are to me,
As plurdled
gabbleblotchits, in
midsummer morning
On a **lurgid bee**,

That **mordiously** hath
blurted out,

Its earted **jurtles**, grumbling

Into a rancid **festering**
confectious organ squealer.

Now the **jurpling** slayjid
agrocrustles,

Are slurping hagrilly up the
axlegrurts,

And living **glupules** frart
and stipulate,

Like jowling meated
liverslime,

Groop, I implore thee, my
foonting **turlingdromes**,

And hooptiously **drangle**
me,

With crinkly **bindlewurdles**,
mashurbitries.

Or else I shall rend thee in
the **gobberwarts** with my
blurplecruncheon,

See if I don't!

Vogon Poetry

Vogon poetry is, of course, the third worst in the Universe.

To tell the story of the book, it is best to tell the story of some of the people behind it. A human from the planet Earth was one of them, though as our story opens he no more knows his destiny than a tea leaf knows the history of the East India Company.

The technology of Hitchhiker's Guide to the Galaxy

The babel fish is such a bizarrely improbable coincidence that anything so mindbogglingly useful could evolve purely by chance that some thinkers have chosen to see it as a final clinching proof of the non-existence of God.
